March & 1888.

FRIDAY, NOVEMBER 8, 1912.

GENTLEMAN AND SCHOLAR. character and bearing that win reverto mold a great man. In him the ast love of truth never dwindled 's labor cramp his specious inedject. He taught, as he studied, with all his heart to the task of bringing ness and light into the lives of men. No boy ever sat under John Mallet who did not gain from that interenduring ideals of courtesy and icity. Generations of students naw through his vision the great laws ture illuminated and touched to callty, and though they may have forgottes many lessons that he taught

w have not forgotten the inspiration

of his daily walk and conversation.

Fow men have more completely given it talents to long service. During eighty full years he lived for his fellows. He helped to build the temple of modern science by his researches or the atomic theory of chemistry. For this he received the high honor of being made a fellow of the Royal Society, a tribute rarely paid to any outside of England. Though always a subject of the British crown, in 1861 he joined the Confederate Army, was later placed in general charge of the ce laboratories of the Confederate States, and at the end of the war was paroled as lieutenant-colonel of my. His services to the Confedfor his faith, not his body.

Dr. Mallet was a member of every

ness. He welcomed trembling youth as an equal on his own high plane. Ancient institutions had given him degrees, and philosophers named him brother, but his finest title was what the leve of his students had bestowed. They called him "Jack" Mallet, scholar and gentleman.

THE DEMOCRATIC CONGRESS.

His power of logical call analysis, however, is exceedingly a condition which might be seriously weak, and he seems to be entirely lack and affection were joined in him menaced by any combination against her, there is the question what would rectly the existing financial and ecobe the reflex effect upon her, so far nomic tendencies, which are fundacold pedantry, nor could the as her vast Mohammedan peoples are concerned, in the event of the Turks being driven out of Europe? Or to e and gentle strength, giving put it more to the point, in the event of her consenting to their being driven

Great Britain has more Mohammedan subjects under her sway than any other Christian nation, and her support of Turkey in the past, as exemplified particularly in the Crimean War and in her compelling a revision of the treaty of San Stefano, has been a potential factor in rendering those subjects contented and in insuring their loyalty. It has aided her as much if not more than anything else in extending her rule over the followers of the Prophet. This has been especially true as to the Indian peninsula.

But it will be recalled that long ere the Balkan war began-ere it could be said that it seriously threatened, in fact—grave symptoms of Mohammedan unrest developed in India, in consequence of the Anglo-Russian treaty, defining the respective spheres of influence of the two powers in Persia. That convention, we are told, was interpreted, even by some of the most intelligent and trustworthy of Indo-Mohammedan leaders of thought, to be a conspiracy between Russia and eracy as director of explosives were Great Britain to obliterate ultimately not the spectacular achievements of the last of the independent Mohammebattle, but their arduous performance dan states, and was imparting ominous made battle possible. stock watering or overcapitalization and distribution, and has, therefore, raised prices. The overcapitalization, however, has not been due to gambling or improper practices on the stock exchange. Increases in stocks and bonds have been based on the earning powers of industrial or transportation panies. In other words, earnings hav have been sold, the proceeds of which have not been invested in capital instruments, but have been used to pay large underwriting fees or to stiff arge underwriting fees er to stiffe competition by securing control of competing corporations through the purchase of its stocks and bonds on an inflated basis. The fundamental causes, inflated basis. The fundamental causes, therefore, of overcapitalization have been those factors which have made the running to the kitchen been those factors which have made it possible to increase earnings. Unjust tariff laws under successive Republican administrations have led to made possible monopoly prices. This is to be here for one meal." made possible monopoly prices. This is forefibly tilustrated by the high prices to the domestic consumer maintained by the steel corporation, with corresponding earnings, which enables it to pay interest on a large amount of capital not representative of tangible assets. The control of the production of a product of nature, such as oil, sugar or anthractic coal, may also be attended by the same profits and overcapitalization as in the case of the United States Steel Corporation. Moreover, interlocking corporation directorates and a community of interest maintained by financial, industrial and transportation concerns may be used to prevent competition, and may be followed by unusual profits and the followed by unusual profits and the payment of interest charges on an inflated capitalization,

work in stimulating overcapitalization, ings and for effecting sales on this basis. Mr. Lawson, as a matter of cery. fact has confused this mechanism with some of the basic problems in our financial and industrial system. With the prohibition of gambling prac

Virginia Press on Wilson

Republicans Helped Wilson.

Theodore Roosevelt gave advance notice that in case of the election of his Democratic opponent he would claim that the Progressives had selected their man even though this was not himself. He has the faculty of claiming things, even though these things much be entirely constant. himself. He has the faculty of claiming things, even though these things be entirely, outside the range of his disposal. What are the facts in the case with regard to the case are the case with regard to the case with rega The returns tell the tale. They disclose the state of mind of the voters of the republic. They show that the American citizens were fearful of the revolutionary tenets espoused by the former President and were determined that he should not have an opportunity of throwing the country into confusion. Therefore, thousands of Republicans voted for Woodrow Wilson in order to kill off the Buil Moose candidate. The question of loyalty to party or fidelity to the republic was placed before the serious citizenship, and they chose the latter. It was feared by the Republican party in a divided condition was under the shadow of defeat, even though admiration inspired faith in the power of President Taft to do much toward saving victory for his party. The Republican voters could not be held to the standard. They deserted in the cause of what they felt was the higher patriotism of placing the country before the individual and before parties. They voted for Wilson, not as a deliberate choice, but because of their abhorence of the radical and revolutionary tenets set forth by the man, who, having been President two trees and the highest office in the world.

The Way of Duty.

Mr. Wilson will be a conservative President in the best sense of the word, it would be blind, indeed, if it did not see that it is only through a wise comservation that it can retain the confidence of the country. The people have just voted overwhelmingly against radicalism, against agitation. There will now be a ruthless fight for control between the warring factions of the Republican party. It will outlast the next president in the best sense of the world. They doed that he can retain the confidence of the country. The people have just voted overwhelmingly against agitation. There will now be a ruthless fight for control between the warring factions. There will now be a ruthless fight for control between the warring factions. The resident in the best sense of the country. The people have is a conservative party. It will outlant the confidence of the cou

up during the campaign, was then bent upon securing control of its destinies for another period of power.—
Baltimore American.

The Progressive Party.

When Rossevelt bolted from the Republican convention he sought to establish a new party. He asked for support from both the old parties. He reasoned that the whole country was just aching to follow his banner, and that his following would be sufficient to sweep from ocean to ocean and from gulf to gulf, leaving both the Republican and Democratic parties strewing the highways with their mangled bodies. Of a truth, Rossevelt has drawn from both parties, but, as was to be expected, he drew more from the Republican than the Democratic. He has beaten the Republican party, but he has established the Democratic in full power. In so doing he and his party are soundly thrashed ind they are left with hardly a crutch to support their tettering limbs. The situation does not offer much hope for the continuance of the Rossevelt movement as one of stremsth. We shall and they are left with hardly a crutch to support their tettering limbs.
